R1040 liquid-cooled diesels

Model: R-1040 Series of Engines

Specifications:

No. of cylinders	3, 4		
Aspiration	Naturally Aspirated (NA) , Turbocharged (TC) (Cylinder version), Turbocharged After cooled (TA) (Cylinder version)		
Model nomenclature	3R1040 (3 cyl NA), 4R1040 (4cyl NA), 4R1040TC (4cyl TC), 4R1040TA (4 cyl TA)		
Bore X Stroke (mm X mm)	105 X 120		
Cooling	Water-cooled, with radiator cooling.		
Power range	26.7 kW		
Speed range	1500 rpm - 2800 rpm		
Weight to power ratio (kg/hp) Wt : Dry weight w/o flywheel Hp : Max. continuous Duty rating	Engine model Ratio 3R1040 5.45 4R1040 5.59 4R1040T 5.45 4R1040TA 4.37		
Space envelope	Engine model LXWXH (dimensions in mm) 4R1040 1140X650X946		
Emission (@ 1500 rpm)	Engine model L X W X H (dimensions in mm) 4R1040 < 3.0		
Power take off	Clutch Torque converter Coupling Jackshaft		
<i>Optional accessories</i>	24 V Electrical (as against 12 V std) Instruments Flywheel housing (SAE 1,2,3 and 4) Safety system against low lub oil pressure, high water temperature, over speed Hydraulic oil cooler Absorption type Silencer Spark arrestor Dry type air cleaner (as against oil bath type std) Special lub oil sumps to suit high inclinations Gear driven hydraulic pump		

<i>Belt/gear driven compressor Flexible coupling PTOs</i>	•
-------------------------------------------------------------------	---

Maintenance and usage warranties: 12 months from the date of despatch or 18 months from the date of manufacturing or 3600 working hours whichever is earlier under normal working conditions.

Service call - time response: Average mean time to repair is 3 days

Additional product information:

User Application Sector	<i>Power, Oil and Gas, Construction and Earthmoving, Agriculture, Utilities, Transport</i>
User Sub Sector	Power generation, Exploration, Extraction, Residential and commercial, Excavation and mining, Large community irrigation schemes, Farm irrigation, Harvesting, Water supply and sewerage, Natural disaster
Industry Sector	<i>Diesel power, Fire fighting systems, Road transport, Water transport</i>
Application Areas	<i>Power plants, Prime movers, Refrigeration systems, Pumping systems, Ground breaking, Electrical systems, Excavation, Irrigation systems, Flood irrigation, Sprinkler irrigation, Tractors, Water supply systems</i>
